

Black Belt Project Simulation Workshop

All about Black Belt Project Simulation Workshop

Program Objectives

Trained Black Belts who wish to carry out a project to practice their black belt knowledge and skills can undergo this simulation workshop and get a Black Belt simulation project completion certificate.

Training Methodology

Training methodology includes Lectures, Q/A, Small Group Discussions, Review Sessions, Exercises, Tests, Hands-on practical problems, Simulation, Role Playing, Teaching Others, Guided Practice, Feedback, Brainstorming, and Problem Solving. The Benchmark Six Sigma training format provides ample practice in three ways

- During training with the help of simulated practice project
- Post training with the help of Global News channel and active discussions in LinkedIn group - Lean Six Sigma War Room

Pre-requisites

To be eligible for Black Belt Project Simulation Workshop (BBPSW), participant should have undergone a recognized Black Belt training.

Course Duration

The course duration of the Black Belt Project Simulation Workshop is 2 days.

Assessment

The course assessment of BBPSW is completely through performance on simulation project. Support shall be provided before each simulation. If participants are unable to progress, an example of application tool shall be shown and participants gets another chance to try out the relevant project phase. Participants need 70% as overall score to get certified.

Why Choose Benchmark Six Sigma ?

Partial List of Clients

“ Here is What our past participants say about Black Belt Certification

I liked the explanation on DMAIC along with usage of tools and methods at each of the steps. Very effective and simple way to get acquainted with six sigma's concepts and methodology.
-Alain Comparet, CEO, Schneider Electric

The best course to achieve customer satisfaction and breakthrough performance improvement.
- Y. Subrahmanyam, GM, Apollo Hospitals

The Benchmark Six Sigma Black Belt training and certification program is comprehensive and well presented with lucid lectures, various relevant examples, focus groups for different industries and a detailed treatment of statistical methods which makes for a valuable learning experience.
- Rajesh Sampathkumar, Asst. Manager - Engineering Consultant, Larsen & Toubro

Unique After-Training Support

When you undergo training from Benchmark Six Sigma, you become a member of a highly active web based group. This helps you in many ways.

- You can view job postings and career discussions.
- Your queries are responded by people from industry of your interest.
- The responses are approved/ moderated by our Master Black Belts.
- You get to know latest happenings in the Six Sigma community. You get to see challenges faced by people in various sectors.
- You get to view and download material uploaded by other participants.

Highest Global Recognition
